THE HIVE

CANDIDATES

FOR REINA V

What Is A Czarina?

. By GOLDY MONTANA

Through tradition and desire, many gay persons in recent years have collectively given concerted efforts to selecting among themselves - through various contests, pageants and services - a gay person or persons to receive special designations of various degrees of champion among their fellows.

For each person selected, there is given a title of Royal Degree. The highest position on this echelon of royal peers in the Peninsula Bay Area, THE GRANDE CZARINA, holds in its lofty achievement many duties, the execution of which, demands a personage of good humor, understanding, fair play, common sense and noble intuition. The GRANDE CZARINA must above all, display a good example and a sense of responsibility wherever he goes. He must always represent the true dignity and joy of being homosexual and all homosexuals of goodwill must know in their hearts by this example that the CZARINA is not a symbolic institution, but a real and loving individual.

Amidst the fun, glitter and excitement of his office, the GRANDE CZARINA has the sober duty of organizing many gay functions resulting in great monetary advancement to host establishments. The CZARINA patronizes gay business and hopes always to best serve the greater good for all gay people - guys and gals - together.

It is a great honor to be elected CZARINA - it is quite another matter indeed to attain the character and disposition that is the CZARINA. Of such is the majesty and dignity which exemplifies our CZARINAS:

SALLY I

GABRIELLE II

We are so very fortunate to have had their example. May our future regent CZARINAS be so inspired and thus make us grateful we have a sky of our own to assemble our stars.
